

PRO COMP SUSPENSION NEW PRODUCT ANNOUNCEMENT

Team Associated

PRO COMP SC8

1:8 scale n/c pro-4 race truck

TEAM ASSOCIATED PRO COMP SC8! Designed to look just like the full-size Pro Comp/Coyne Motorsports, Pro-4 race truck that runs in CORR short course off-road series, Team Associated has just released the new Travis Coyne, Pro Comp SC8 as the latest edition to their line of 1:8 scale, nitro 4WD, authentic race truck replicas!

Based on the championship-winning RC8T truggy platform, the SC8 was designed to meet the scale specifications of the full-size short course race truck. It's all there, from the scale suspension travel, to the roll-cage tube diameter, to the functional mud flaps.

Fully assembled and ready to go, underneath the beautifully finished body, roll cage and wheels beats the heart of a RC8T. Team Associated's Pro.28 engine and XP3D Computerized Digital FM Radio system are factory installed. The differentials and shocks come filled with the proper silicone fluids, making it faster and easier than ever to get Team Associated SC8 performance out of the box and into the dirt!

Team Associated is the winningest name in R/C cars, having won 23 world championship titles. We think that you will agree that the Pro Comp SC8 is yet another champion by design.
